企业简介

COMPANY INTRODUCTION

北京华德液压工业集团有限责任公司是北京京城机电控股有限责任公司麾下重点企业，中国液压气动密封件工业协会副理事长单位。成立于1979年，经过技术引进及自主研发，现已发展成为以高压液压阀、工程多路阀、柱塞泵/马达、液压成套设备四大支柱产业为核心的专业设计、制造、服务的大型国有企业集团。产品广泛应用于工程机械、煤炭机械、农业机械、环保机械、盾构机械、航空航天、国防装备、船舶海工、冶金装备、水利电力、机床设备、石油石化等众多领域，拥有完善的营销服务网络，产品遍及全国并远销世界各地。

华德液压及所属企业均通过国家质量管理、环境管理、职业健康安全管理体系三大体系认证，主导产品通过中国船级社CCS认证、节能产品认证。主持和参与了多项国家级、省部级科研及产业化项目，先后荣获“高新技术企业”“制造业单项冠军示范企业”“北京市专精特新企业”“全国用户满意产品”“中国液压行业最具影响力品牌”“中国机械工业质量奖”“工程机械配套件用户满意10强企业”“中国工程机械零部件Prime Suppliers500”“工程机械零部件百强榜——液压及密封装置金奖”等多项荣誉称号，华德液压被中华全国总工会授予“全国五一劳动奖状”，中央精神文明建设指导委员会授予“第六届全国文明单位”。

北京市液压技术研究所有限公司成立于1980年，由北京华德液压工业集团有限责任公司管理，与华德液压同属于北京京城机电控股有限责任公司。负责液压成套设备设计、制造和服务，执行GJB9001C质量管理体系，具备装备承制单位资格证书和武器装备科研生产单位二级保密资格证书。研究所工程技术人员，涵盖机械、液压、电气、材料等专业，能够完成复杂设备的设计开发，具有复杂液压系统、大型结构的设计、仿真与解析能力，在自动控制领域始终处于领先水平，进一步提升了华德液压为客户提供整体解决方案的能力。

Beijing Huade Hydraulic Industry Group Co., Ltd. (hereinafter referred to as Huade Hydraulic) is a key enterprise under Beijing Jingcheng Machinery Electric Holding Co., Ltd., and the vice chairman unit of the China Hydraulics Pneumatics & Seals Association. Huade Hydraulic was established in 1979, through technology introduction and independent research and development, it has now developed into a large state-owned enterprise group specializing in the design, manufacturing, and service of four pillar industries: high-pressure hydraulic valves, mobile multi-way valves, piston pumps/motors, and complete sets of hydraulic equipment. Our products are widely used in various fields such as construction machinery, coal machinery, agricultural machinery, environmental protection machinery, shield tunneling machine, aerospace, national defense equipment, naval architecture & marine Engineering, metallurgical equipment, water conservancy and electric engineering, machine tool equipment, petrochemical industry, etc. We have an excellent marketing & service network, our products are sold throughout the country and exported to various areas of the world.

Huade Hydraulic and its affiliated enterprises have passed the three major national system certifications of quality management, environmental management, and occupational health and safety management. Its leading products have received the CCS (China Classification Society) certificate and Energy-saving product certificate. Huade Hydraulic has led and participated in multiple national, provincial and ministerial level scientific research and industrialization projects, and has successively won the titles of "High-tech Enterprise", "Manufacturing Single Champion Demonstration Enterprise", "The Specialized, Refined, Characteristic & Innovative Enterprise in Beijing", "National User Satisfaction Product", "Most Influential Brand in China's Hydraulic Industry", "China Machinery Industry Quality Award", "Top 10 Enterprise of User Satisfaction in Engineering Machinery Component", "China Engineering Machinery Parts Prime Suppliers 500" and "Top 100 rankings of Engineering Machinery Parts - Hydraulic and Sealing Device Gold Award", etc. Huade Hydraulic was awarded the "National May Day Labor Award" by the All-China Federation of Trade Unions, and the "6th National Civilized Unit" by the Central Spiritual Civilization Development Steering Commission.

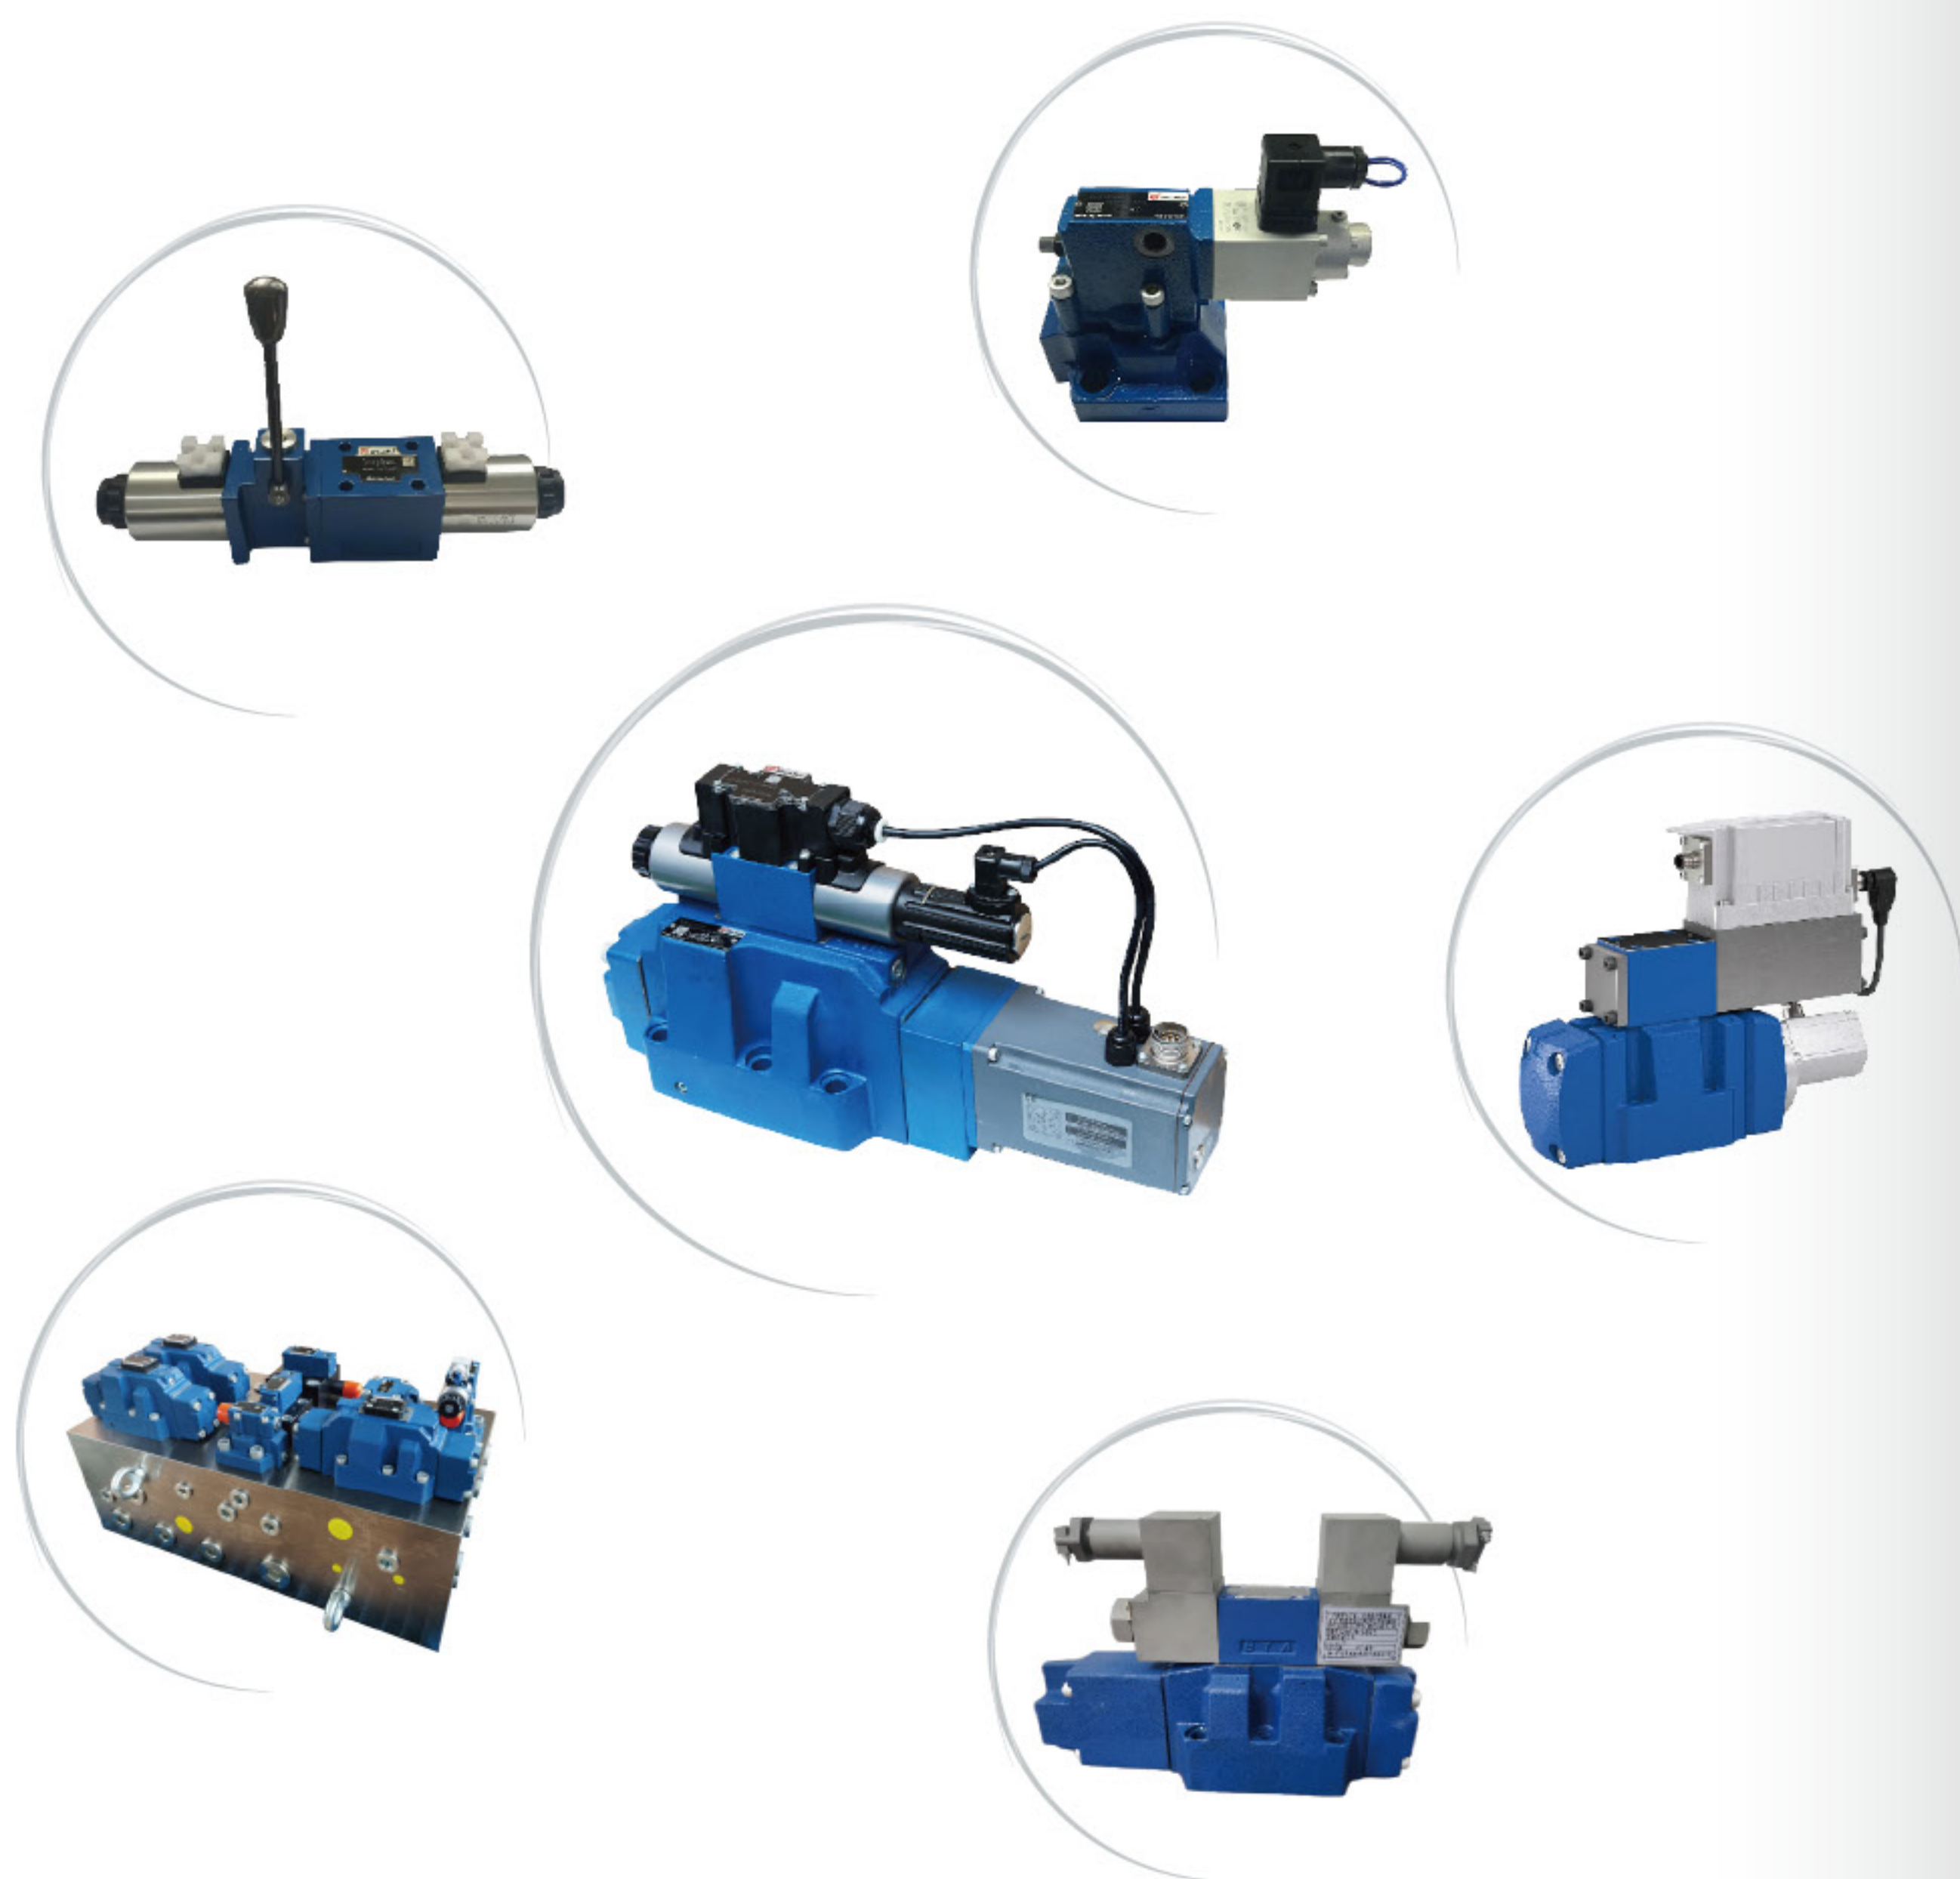

Beijing Hydraulic Technology Research Institute Co., Ltd. (hereinafter referred to as The Institute) was established in 1980 and is managed by Beijing Huade Hydraulic Industry Group Co., Ltd. It belongs to Beijing Jingcheng Machinery Electric Holding Co., Ltd. along with Huade Hydraulic. The Institute is specialized in design, manufacturing, and service of complete sets of hydraulic equipment, implementing the GJB9001C quality management system, and possessing the certificate of qualified equipment manufacturing unit and the second-level confidentiality qualification certificate for weapon equipment research and production unit. The engineering and technical personnel of the Institute, involving mechanical, hydraulic, electrical, materials and other majors, are able to complete the design and development of complex equipment. They have the ability to design, simulate, and analyze complex hydraulic systems and large structures, and have always been at a leading level in the field of automatic control, which further improving the capability of Huade Hydraulic to provide customers with package solutions.

核心产品

CORE PRODUCTS

高压液压阀产品

High pressure hydraulic valve products

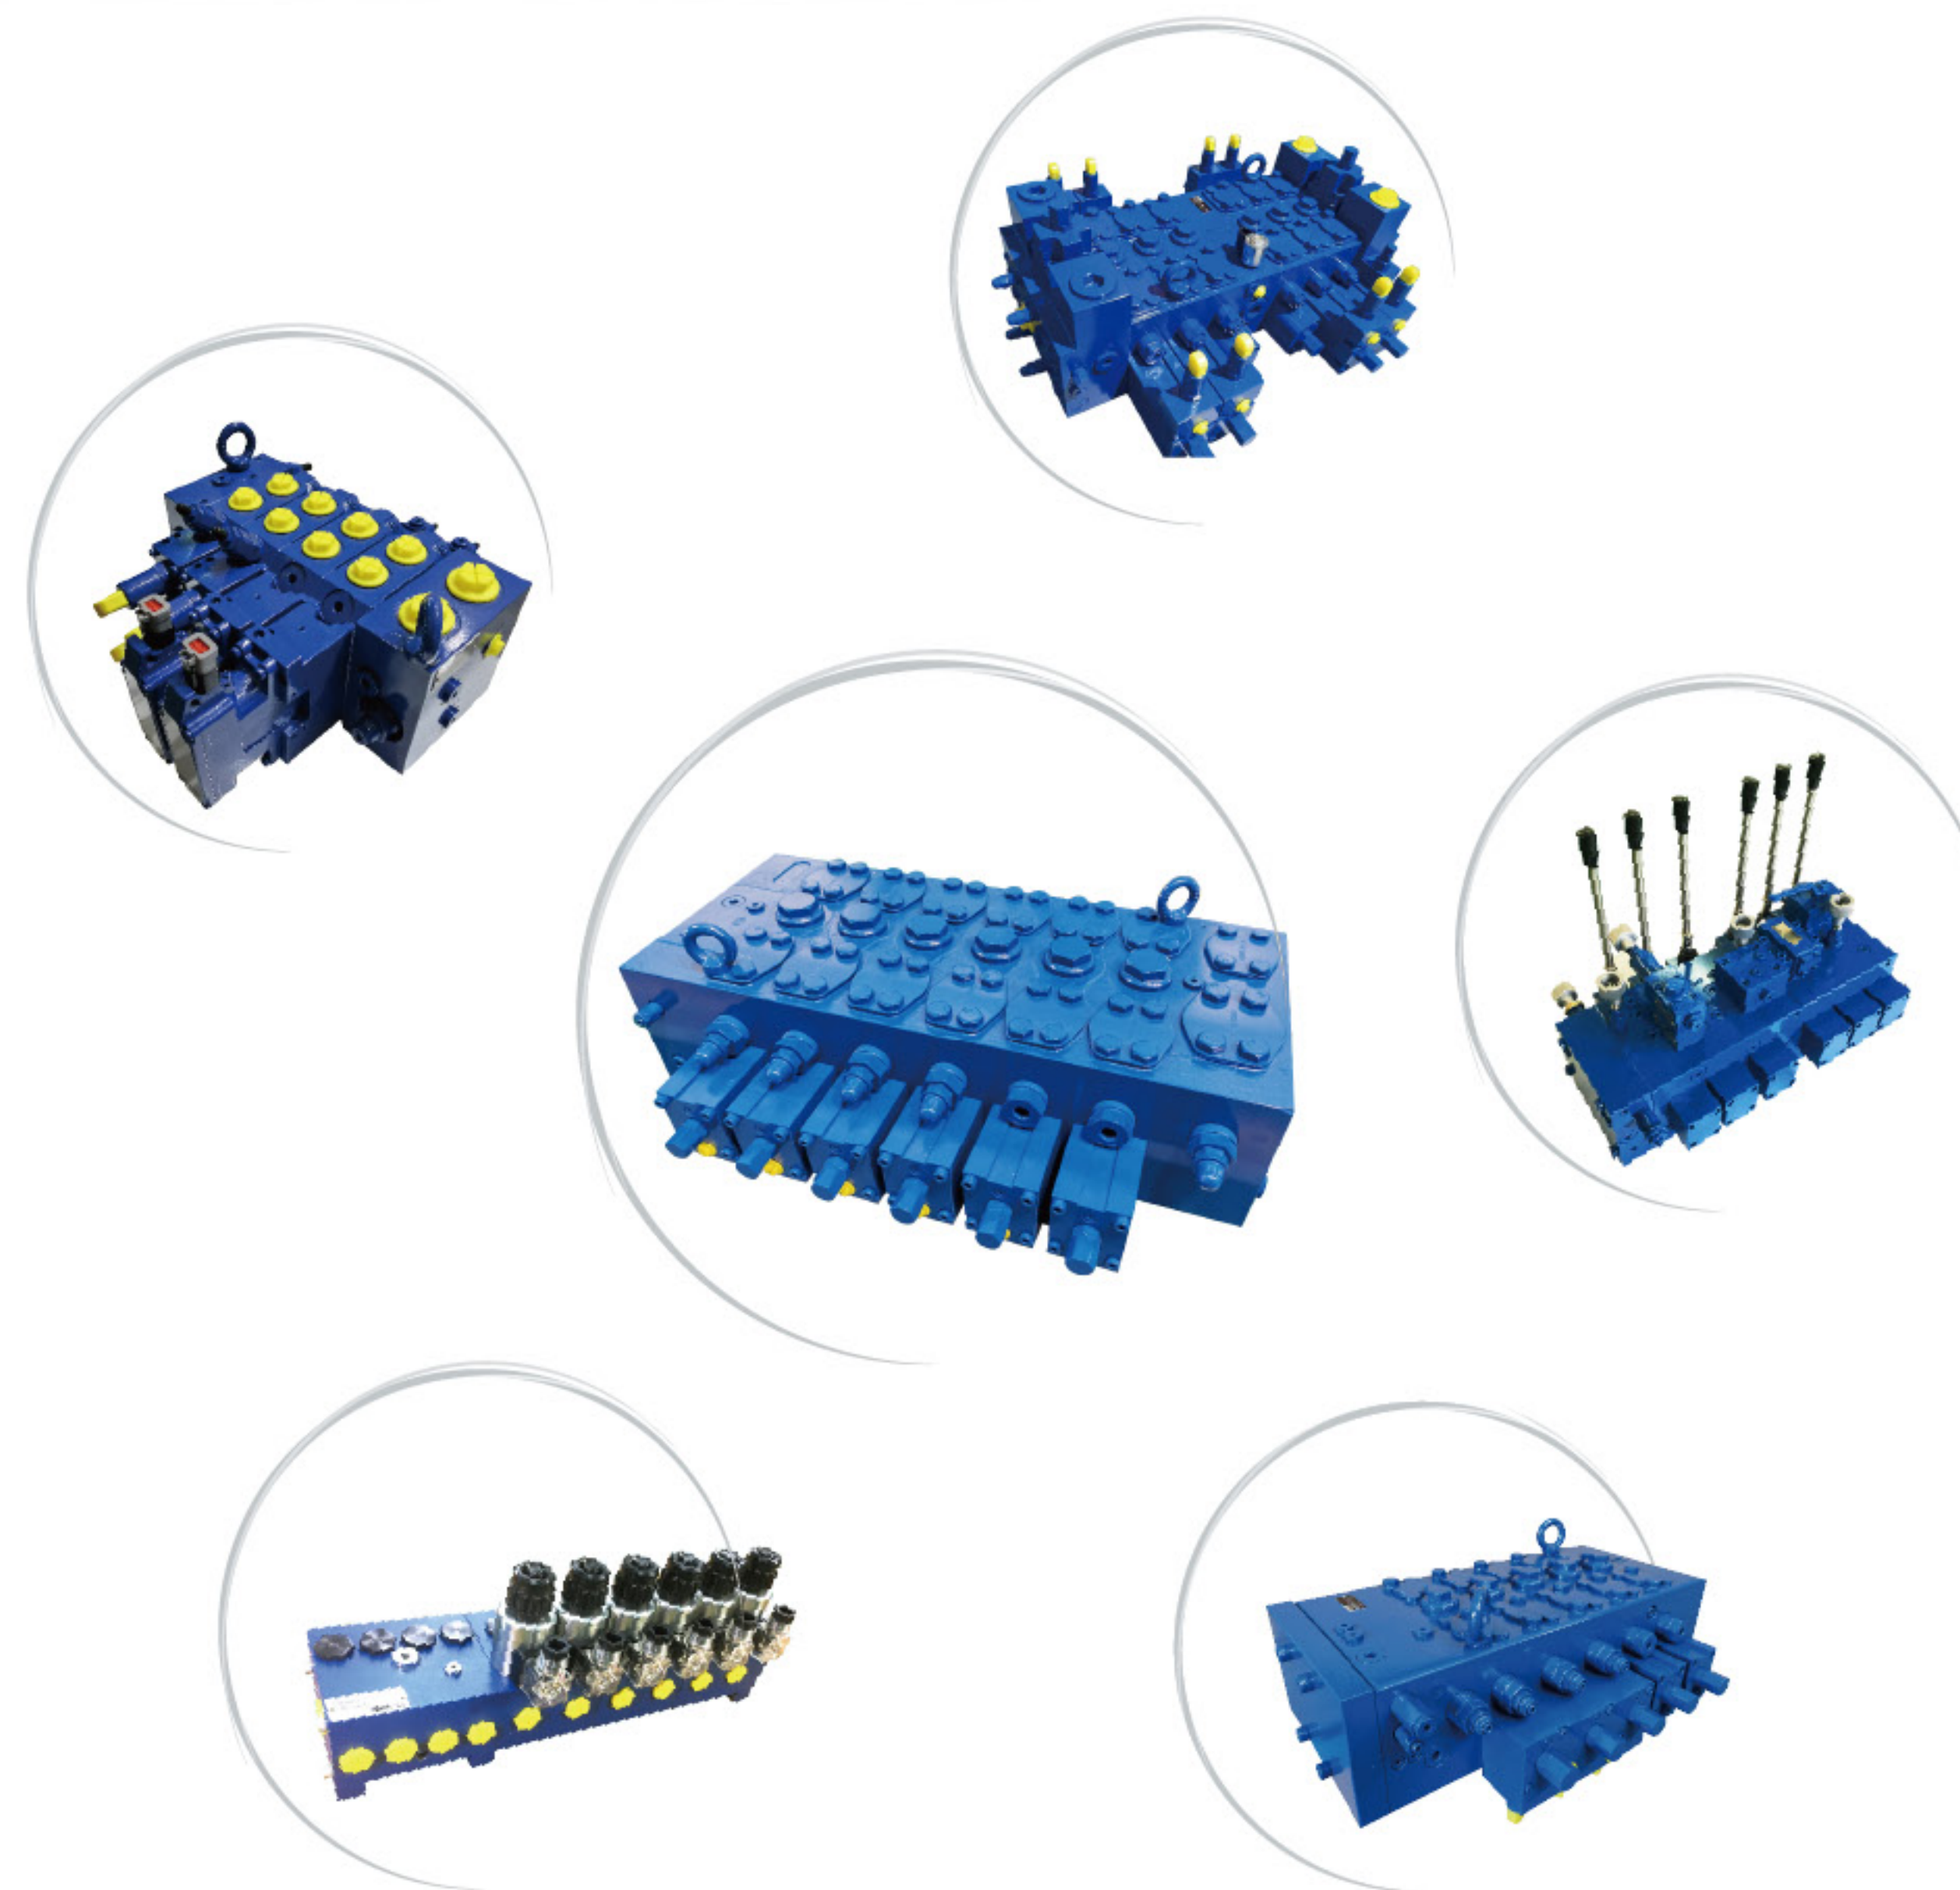

产品范围：比例伺服阀、方向阀、压力阀、流量阀、插装阀、液压集成阀组。

PRODUCT RANGE: Proportional servo valves, directional valves, pressure valves, flow valves, cartridge valves, hydraulic integrated valves.

工程多路阀产品

Engineering multi-way valve products

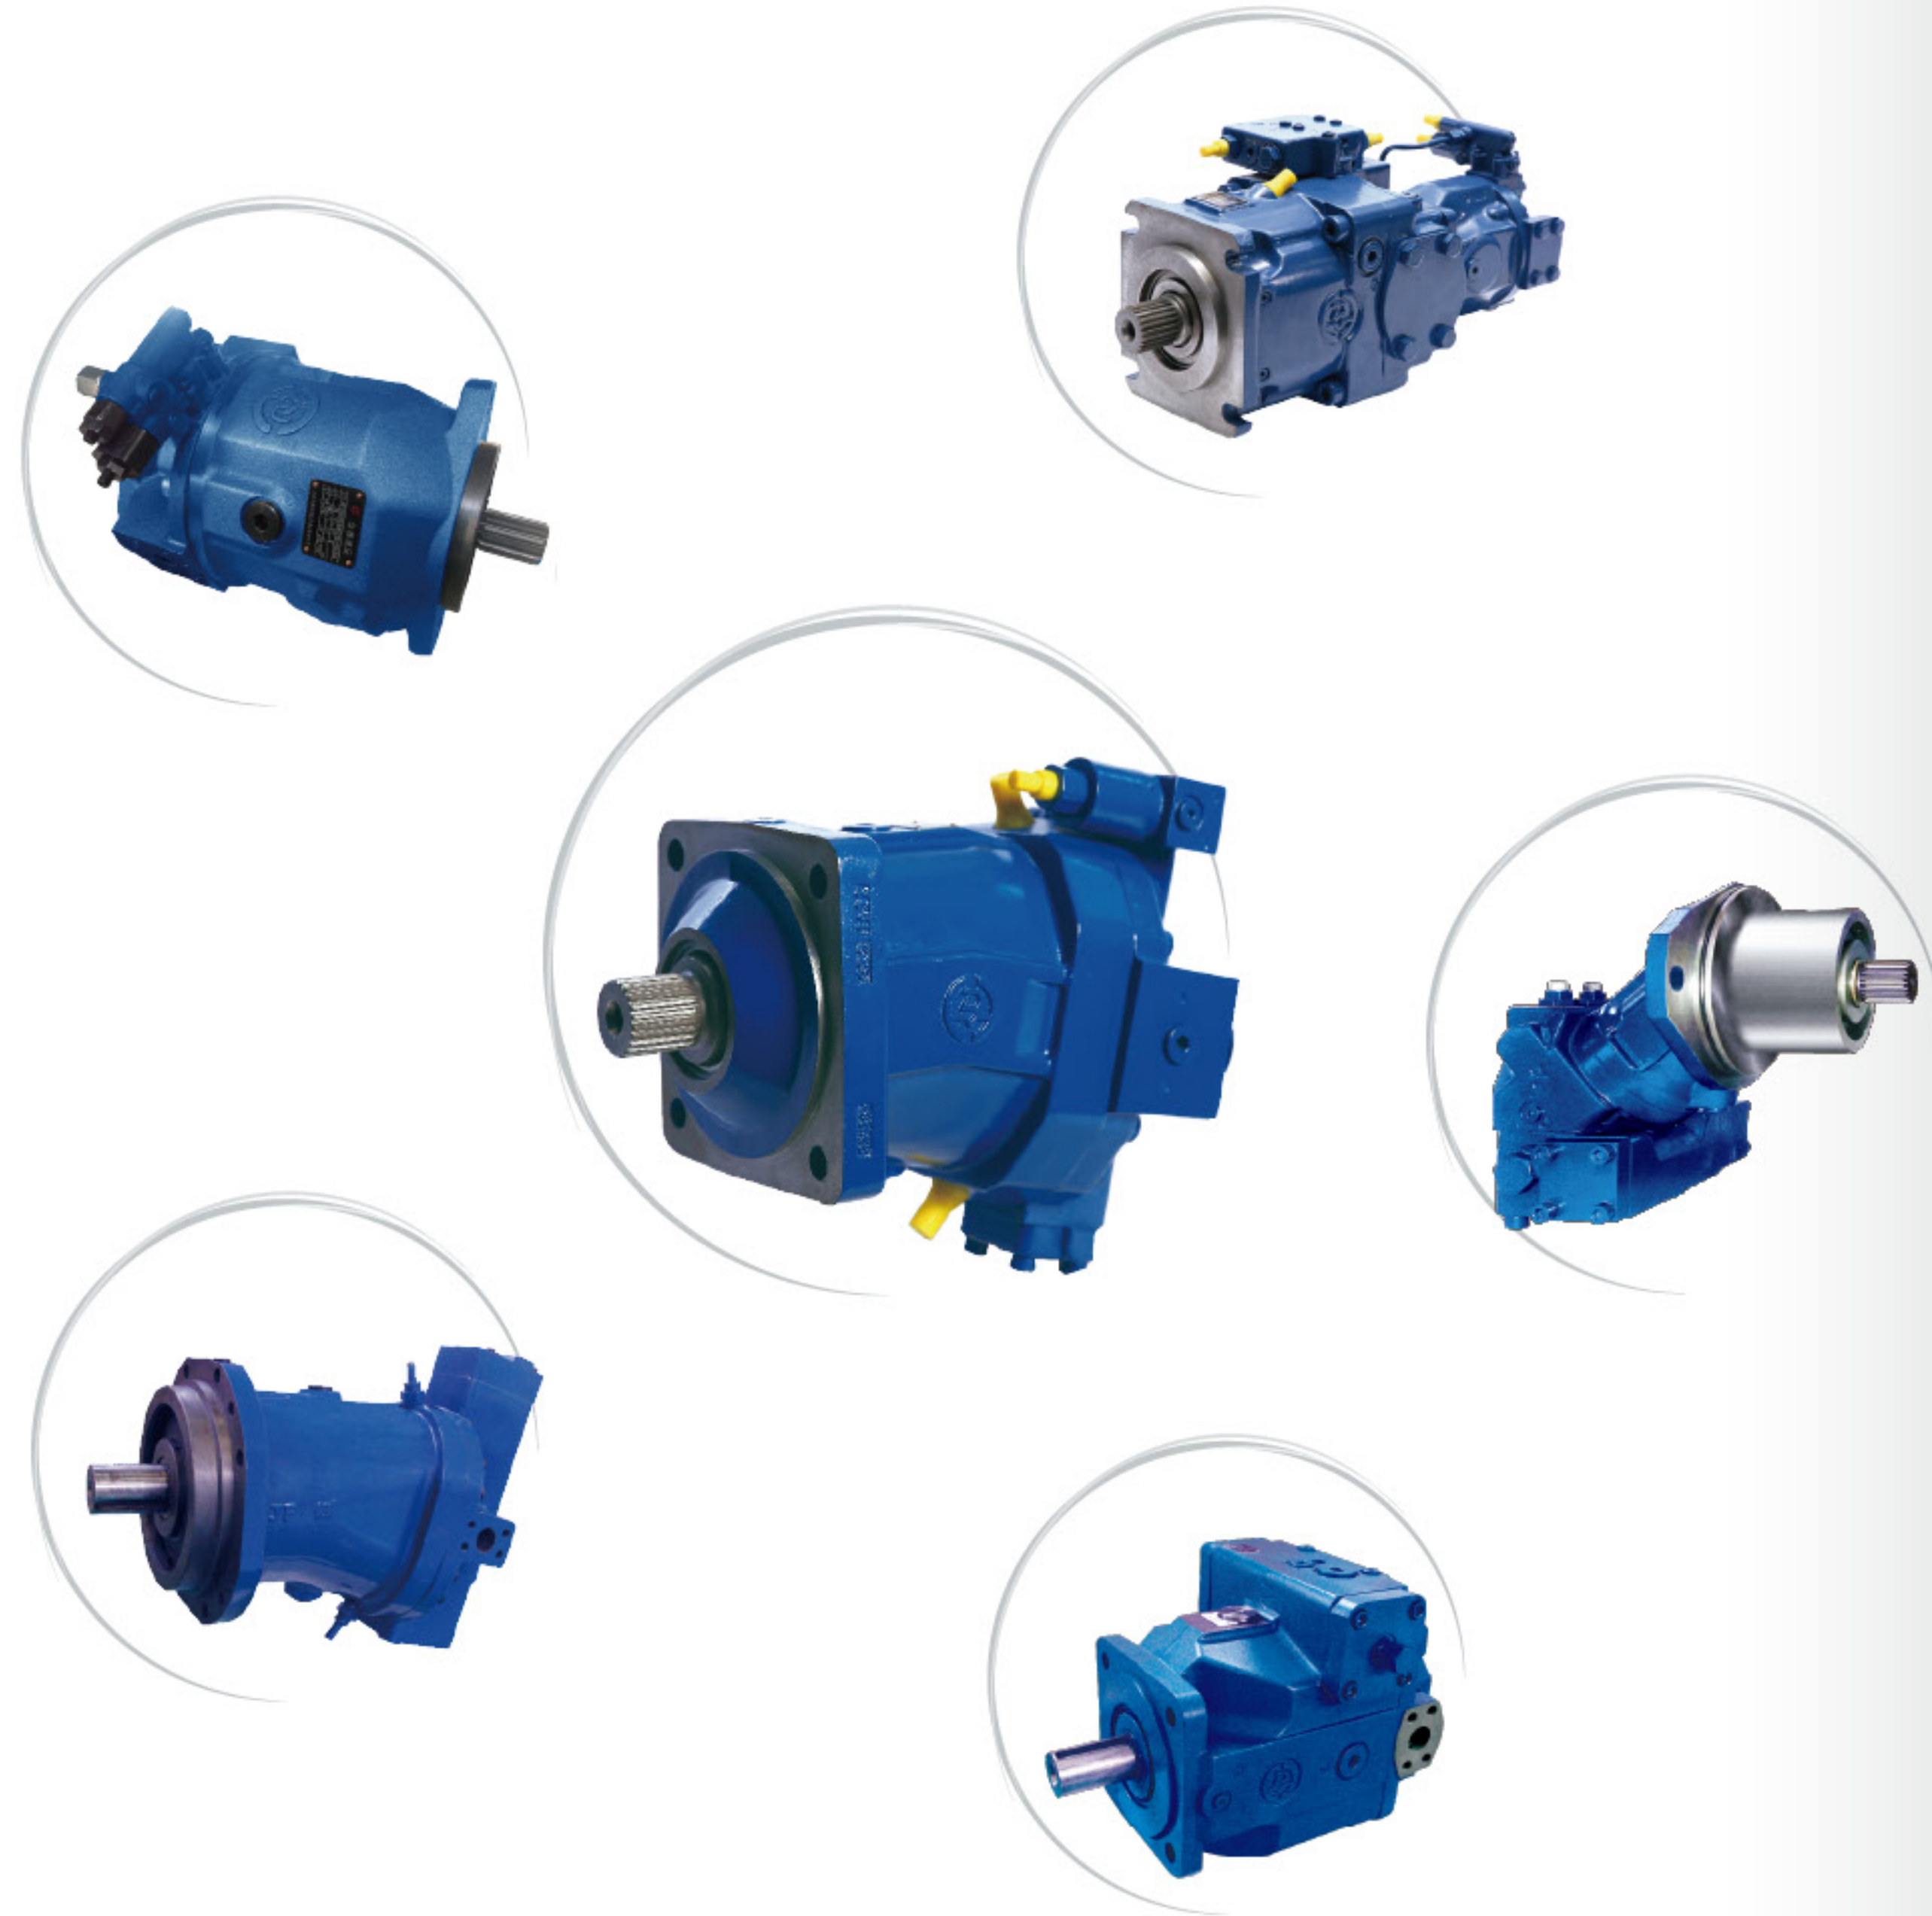

产品范围：开心式多路阀、负载敏感型多路阀、流量共享型多路阀、负载口独立控制多路阀、平衡阀、先导控制装置。

PRODUCT RANGE: Open-center multi-way valve, load sensitive multi-way valve, flow sharing multi-way valve, load port independent control multi-way valve, balance valve, pilot control device

柱塞泵/马达产品

Piston pump/motor products

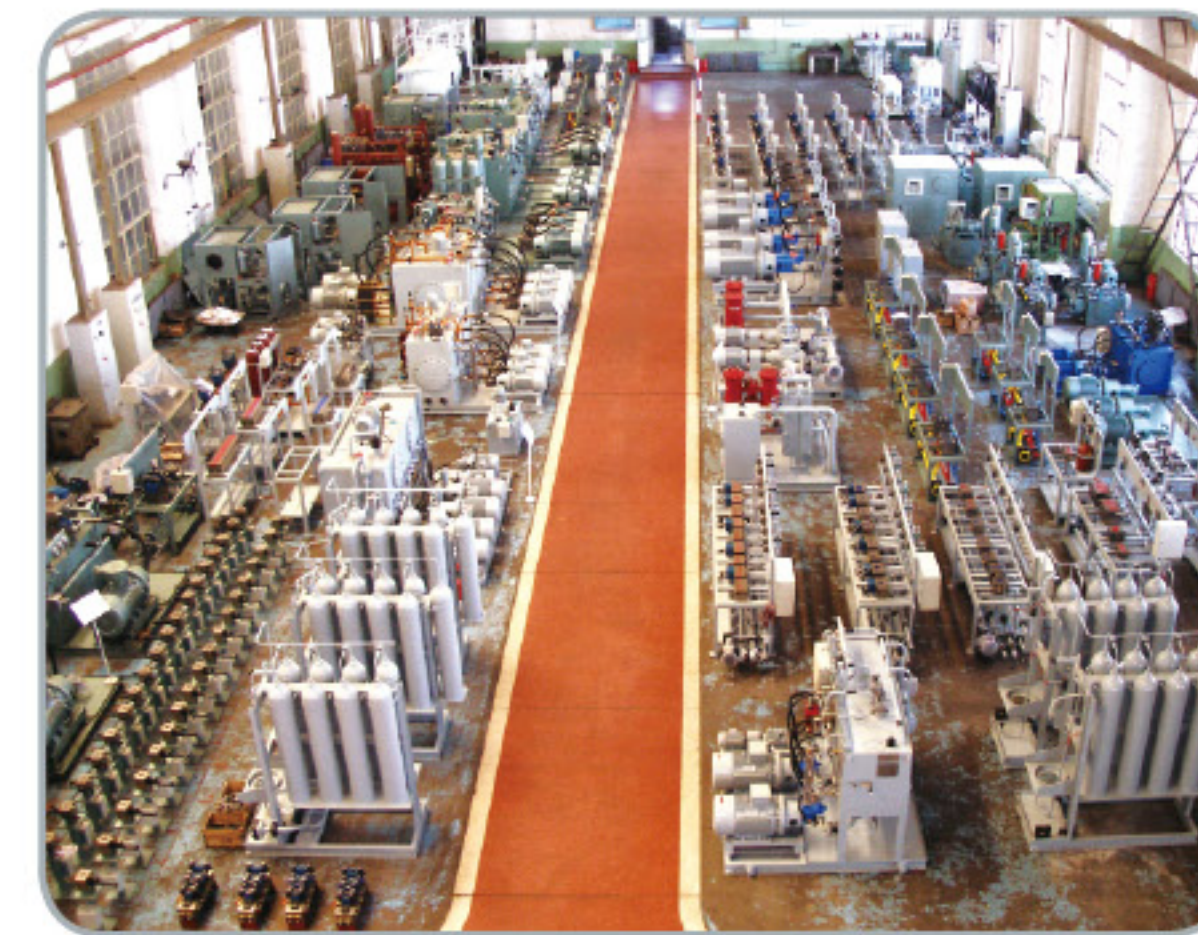

产品范围: A2F系列斜轴式轴向柱塞定量泵/马达、A6V系列斜轴式轴向柱塞变量马达、A7V系列斜轴式轴向柱塞变量泵、A8V系列斜轴式轴向柱塞变量双泵、HD-A4VSO系列斜盘式轴向柱塞变量泵、HD-A11V(L)O系列斜盘式轴向柱塞变量泵、HD-A10V(S)O系列斜盘式轴向柱塞变量泵等。

PRODUCT RANGE: A2F series oblique axial piston quantitative pump/motor, A6V series oblique axial piston variable motor, A7V series oblique axial piston variable pump, A8V series oblique axial piston variable double pump, HD-A4VSO series swash plate axial piston variable pump, HD-A11V(L) O series swash plate axial piston variable pump, HD-A10V(S)O series swash plate axial piston variable pump, etc.

液压成套系统

Hydraulic complete system

产品范围: 冶金设备液压成套装置、环保机械液压成套装置、机床液压成套装置、石化通用液压成套装置、船舶海工液压成套装置、防爆路障液压成套装置、水利系统液压成套装置、液压试验台、特种装备成套装置、液压元件测试台。

PRODUCT RANGE: Metallurgical equipment hydraulic complete sets, environmental protection machinery hydraulic complete sets, machine tool hydraulic complete sets, hydraulic system for petrochemical application, Hydraulic system for marine application, explosion-proof roadblock hydraulic complete sets, water conservancy system hydraulic complete sets, hydraulic test-bed, hydraulic system for special equipment, hydraulic components testing bench.

工程用行星减速机

Planetary gearbox for mobile

产品范围: 行走减速机、全回转钻机用减速机、回转减速机及卷扬减速机，产品结构紧凑、噪音低、扭矩大，广泛应用在工程、起重、船舶以及军工等领域。

PRODUCT RANGE: Walking speed reducer, full rotary drill speed reducer, rotary speed reducer and hoist speed reducer. The products have features of compact structure, low noise and large torque, and is widely used in engineering, lifting, shipping and military fields.

整体解决方案

Overall solution

产品范围: 主泵HD-A11VO145、逻辑控制阀MWV18、CMV25、RMV25、动力头马达HD-A6VM160、HD-A6VM200、防爆阀等主控和辅助控制元件在内的煤炭钻机整体解决方案；主泵、主阀、马达、减速机、油缸、手柄、脚踏及其他辅助控制阀在内的动力元件、执行元件以及安全控制元件的履带式起重机、旋挖钻机、汽车起重机等整体解决方案。

PRODUCT RANGE: Main pump HD-A11VO145, logic control valves MWV18, CMV25, RMV25, power head motor HD-A6VM160, HD-A6VM200, explosion-proof valve and other main control and auxiliary control components of coal drilling rig as a whole solution; Main pumps, main valves, motors, reducers, cylinders, handles, pedals and other auxiliary control valves including power components, actuators and safety control components of crawler cranes, rotary drilling rigs, truck cranes and other overall solutions.

液压油缸及配套件

Hydraulic cylinders and accessories

产品范围: 活塞油缸、柱塞油缸、伸缩油缸、摆动油缸、蓄能器、过滤器和液压油。产品广泛应用于工程机械、机床制造、冶金矿山、航空航天等领域。

PRODUCT RANGE: Piston cylinder, plunger cylinder, telescopic cylinder swing cylinder, Accumulator, filter and Hydraulic oil. Products are widely used in construction machinery, machine tool manufacturing, metallurgy and mining, aerospace and other fields.

数字液压

Digital Hydraulic

产品范围: 数字比例换向阀、大流量数字比例换向阀、数字比例溢流阀、三通数字比例减压阀、数字比例流量阀。

PRODUCT RANGE: Digital proportional reversing valve, large flow digital proportional reversing valve, digital proportional relief valve, three-way digital proportional pressure reducing valve, digital proportional flow valve.

应用领域

APPLICATIONS

工程机械 CONSTRUCTION MACHINERY

华德液压本着节能环保的理念,努力打造绿色产品,为起重机、挖掘机、旋挖钻机、水泥泵车及搅拌机、装载机、压路机、高空作业平台等工程机械液压系统提供各种型号的液压泵/马达、工程多路阀、液压阀与控制阀组、减速机、油缸及液压成套系统,产品体积小、效率高、节能环保,是工程机械主机厂的理想选择。

Based on the concept of energy saving and environmental protection, Huade Hydraulic works hard to develop green products, and provide various types of bent-axis pumps/motors, axial pumps/motors, directional control valves, pressure control valves, flow control valves, cartridge valves, proportional valves, multi-way valves, manifold blocks, seals and the hydraulic systems for construction machinery such as cranes, excavators, concrete pump trucks, mixers, forklifts, loaders, pavers, brick making machines and drilling rigs. The product has features of small size, high efficiency and energy saving, which is an ideal choice for OEM customer.

煤炭机械 COAL MACHINERY

华德液压与煤炭机械行业头部企业广泛合作,为煤矿用全液压坑道钻机、定向钻机、潜孔钻机、自动钻机等各型矿用钻探机械提供液压泵、柱塞马达、多路阀、防爆阀组、辅助控制阀等整体技术解决方案,成为各大煤炭机械制造企业的首选品牌。

Huade Hydraulic has extensive cooperation with leading enterprises in the coal machinery industry, providing overall technical solutions including hydraulic pumps, piston motors, multi-way valves, explosion-proof valve groups, auxiliary control valves, etc. for various types of mining drilling machinery used in coal mines, such as fully hydraulic tunnel drills, directional drills, down-hole drills, automatic drills, etc. Huade Hydraulic has become the preferred brand for major coal machinery manufacturing enterprises

国防工业 NATIONAL DEFENSE INDUSTRY

华德液压参与多项国家“卡脖子”工程和关键液压元件进口替代,参与多项国家重点技术改造项目 and 国防设备改造项目,为高端装备关键核心技术自主可控,推进国防装备现代化,保卫国家安全贡献了力量。

Huade products are involved in many national technical transformation projects and national defense equipment transformation projects, realizing the key parts import substitution and breaking the block of depending technology, and have made contributions for independence and controllability of key core technologies of high-end equipment, promoted the modernization of defense equipment, and defended national security.

农业机械 AGRICULTURAL MACHINERY

华德液压积极参与中国农业机械化和自动化的发展进程,充分发挥液压技术优势,推出了适应中国农业机械的系列产品,包括用于静压驱动的闭式泵马达产品,用于农机各种辅助动作控制的液压阀组和多路阀产品,用于精准农业耕作的电液比例闭环控制产品及液压油缸等,为各类收获机械、采棉机、秸秆打捆机等提供专业化整体技术解决方案。

Huade Hydraulic actively participates in the development process of agricultural mechanization and automation in China. By fully utilizing the advantages of hydraulic technology, it has launched a series of products suitable for Chinese agricultural machinery, including closed pump/motor products for static pressure drive, Hydraulic valve groups and multi-way valves for various auxiliary motion control of agricultural machinery, electro-hydraulic proportional closed-loop control products and hydraulic cylinders for precision agricultural cultivation, providing professional overall technical solutions for all types of harvesting machinery, cotton pickers, straw balers, etc.

冶金装备 METALLURGICAL EQUIPMENT

华德液压植根冶金行业,服务于国内各类大中型钢铁企业,与多家钢铁集团建立长期战略合作关系,与国内各大冶金设计院、工程技术公司等保持紧密协作,具备为钢铁企业全流程提供各型液压阀、泵马达、油缸等液压基础元件及各类液压系统的综合配套服务能力。

Huade Hydraulic is rooted in the metallurgical industry, serving various large and medium-sized steel enterprises in China. It has established long-term strategic cooperation relationships with multiple Iron & Steel groups, and maintains close collaborations with major metallurgical design institutes and engineering technology companies. It has the ability to provide comprehensive supporting services for iron & steel enterprises with various hydraulic basic components such as hydraulic valves, pumps/motors, hydraulic cylinders, and all types of hydraulic systems throughout the whole production process.

环保机械 ENVIRONMENTAL PROTECTION MACHINERY

华德液压是中国环境保护的积极践行者和参与者,是中国环卫行业液压产品的主要供应商。与国内外知名企业合作,为各型道路清扫保洁车辆、市政应急设备、垃圾收转运装置等提供液压泵、液压阀、控制阀组和液压系统成套设备等专业化产品。

Huade Hydraulic is an active practitioner and participant in environmental protection in China, and a major supplier of hydraulic products for China sanitation industry. Huade works closely with well-known domestic and foreign enterprises to provide specialized products such as hydraulic pumps, hydraulic valves, control valve groups, and complete sets of hydraulic system equipment for various types of road cleaning vehicles, municipal emergency equipment, and garbage collection and transportation devices

机床设备 MACHINE TOOLS

华德产品广泛应用于机床制造领域,产品体积小、重量轻,能在给定范围内平稳地自动调节牵引速度,并可实现无级调速。且操纵控制简便,自动化程度高,容易实现过载保护,液压元件实现了标准化、系列化、通用化,便于设计、制造和使用。可靠的运行和稳定的质量赢得了众多客户的信赖。

Huade products are widely used in the field of machine tool manufacturing, with the features smaller in size and lighter in weight, and can automatically adjust the traction speed smoothly within a given range, and realize stepless speed regulation. The hydraulic components are made base on standardization, serialization and universalization, which is convenient for designing, manufacturing and using. Reliable operation and stable quality have won the trust of many customers.

船舶海工 MARINE ENGINEERING

华德液压生产的系列方向阀、压力阀、插装阀、流量阀、比例阀、多路阀及附件, A2F、A6V、A7V、A8V 系列液压泵马达产品,广泛应用于船舶舵机液压系统、回转起重机液压系统以及调距桨液压系统,在船舶领域拥有庞大的用户群体。

The series of directional control valves, pressure control valves, cartridge valves, flow control valves, proportional valves, multi-way valves and accessories, A2F, A6V, A7V and A8V series hydraulic pumps/motors produced by Huade Hydraulic are widely used in marine steering gear hydraulic system, slewing crane hydraulic system and adjustable pitch propeller hydraulic system, Huade own a huge customer group in the marine industry.

全国营销服务热线：400 000 6987

国际营销电话：+86-10-67872595

营销网络

SALES NETWORK

华德液压具备完备的营销网络和售后服务体系，在国内拥有徐州、长沙、北京、天津、石家庄、河南、南京、宁波、泉州、东北、内蒙古、华南、西南、西北等营销网点及授权代理商。同时，在英国、俄罗斯、土耳其、南非、印度、拉丁美洲及巴西、阿根廷等国家和地区设有国际代理商，可为全球客户提供满意的售后服务和强大的技术支持。设有阿里旗舰店电子商务平台和400-000-6987营销服务热线，为用户提供方便快捷的网购服务。

Huade Hydraulic has a complete marketing network and after-sales service system, with offices or dealers in Xuzhou, Changsha, Beijing, Tianjin, Shijiazhuang, Henan, Nanjing, Ningbo, Quanzhou, Northeastern China, Inner Mongolia, Southern China, Southwestern China, and Northwestern China. Meanwhile, there are international distributors in the United Kingdom, Russia, Turkey, South Africa, India, Latin America, Brazil, Argentina and other regions, which can provide satisfactory after-sales service and strong technical support for customers around the world. It has an Ali flagship e-commerce platform and a 400-000-6987 marketing service hotline, providing users with convenient and fast online shopping services.

企业荣誉

QUALIFICATION HONOR

经过不断发展，华德液压集团公司形成了完善的生产体系、质量管理体系，通过了质量管理体系、环境管理体系、职业健康安全管理体系认证，通过了中国船级社CCS认证、中国节能产品等一系列认证，产品获美国洛杉矶高品质产品推荐证书、国际展览展示产品参展品牌。华德液压产品在国内有着极高的声誉和市场知名度，是国内主机用户的首选产品。

After continuous development, Beijing Huade Hydraulic Industry Group Co., Ltd. has formed a perfect production system and quality management system. It has passed the certification of quality management system, environmental management system, occupational health and safety management system, CCS certification of China Classification Society, China energy-saving products and a series of certifications, etc. The products have won the high-quality product recommendation certificate of Los Angeles, USA, and the participating brands of products are displayed in international exhibitions. The products have a very high reputation and market awareness in China, and are the first choice for domestic mainframe users.

研发能力

R&D CAPABILITY

华德液压研究院充分集聚创新要素，成为液压行业科技创新资源的集聚基地。在液压阀、液压泵/马达、工程多路阀、液压成套设备、智能控制、环保节能、新技术、新工艺、新产品研究及系统集成整体配套技术上，全方位突破发展。主持及参与多项国家和行业标准的起草修订工作，多次承担国家“863”、科技支撑计划、强基工程等重大项目及成果转化项目。在科技攻关、人才培养、机构建设、制度完善和机制创新等方面引领液压行业的发展，成为液压行业技术进步的示范基地。

Huade Hydraulic established a research center, they focus on innovative elements, and become the gathering base of scientific and technological innovation resources in hydraulic industry; there are breakthroughs in hydraulic valve, hydraulic pump/motor, mobile multi-way valve hydraulic system, intelligent control, environmental protection and energy saving, new technology, new process new product development and package solutions. Organize and participate in the drafting and revision of many national and industry standards, and undertake many major scientific research and achievement transformation projects such as the National "863", Science and Technology Support Plan and Strengthening Basic Parts Project. Lead the development of hydraulic industry in scientific and technological research, personnel training, organization construction, system improvement and mechanism innovation, and become a demonstration base for technological progress of hydraulic industry.

华德液压为国家“高新技术企业”“北京市企业技术中心”“北京科技研究开发机构”，中国机械工业联合会认定的“机械工业液压传动与控制工程研究中心”。“十四五”期间先后荣获“制造业单项冠军示范企业”“北京市专精特新企业”“工程机械配套件用户满意10强企业”“2023中国工程机械零部件Prime Suppliers500”“工程机械零部件百强榜——液压及密封装置金奖”等多项荣誉称号。多项产品获国家发明专利、实用新型专利。目前华德液压有4个职工创新工作室，其中“叶荣科职工创新工作室”被评为“北京市示范性职工创新工作室”，“工程阀职工创新工作室”被评为“北京市工人先锋号”。

Beijing Huade Hydraulic is the national "high-tech Enterprise", "Beijing Enterprise Technology Center", "Beijing Science and Technology Research and Development Institution", and "Machinery Industry Hydraulic transmission and control engineering Research Center" recognized by China Machinery Industry Federation. During the "14th Five-Year Plan" period, it has won the "Manufacturing single champion demonstration enterprise", "Beijing specialized and sophisticated enterprises", "Construction machinery parts customer satisfaction Top 10 enterprises", "2023 China construction machinery parts Prime Suppliers500", "Construction machinery parts top 100 list – hydraulic parts and sealing gold Medal" and other honorary titles. A number of products have won national invention patents and utility model patents. At present, Huade Hydraulic has 4 innovation studios, among which Ye Rongke innovation studio has been successfully re-evaluated as a demonstration innovation studio in Beijing, and the mobile valve innovation studio has been rated as the Pioneer of Beijing workers.

大事记

MEMORABILIA

1981年11月12日: 经国家基础建设委员会批准, 北京市液压工业公司引进德国高压通用液压阀、柱塞泵马达、行星减速机、液压铸件等四项技术, 进入高端液压元件制造领域。

On Nov.12,1981, approved by National Infrastructure Committee, Beijing Hydraulic Industry Company introduced license-technology for high pressure hydraulic valve, piston pump/motor, planetary gearbox and foundry from Germany and came into high-end hydraulic component manufacturing field.

1981

2006年, 实现液泵/马达年产20000台。

In 2006, annual production for pumps/motors 20,000 pcs.

2006年, 实现液压阀年产50万件。

In 2006, annual production for valves 500,000 pcs.

2006

2010年, 实现液泵/马达年产50000台。

In 2010, annual production for pumps/motors 50,000 pcs.

2010年, 实现液压阀年产100万件。

In 2010, annual production for valves 1 million pcs.

2010

2015年7月25日, 华德液压承担的工信部2015年工业转型升级强基工程《工程机械与工程车辆用多路阀实施方案》项目在华德液压密云基地实施。

July 25th, 2015 Huadelaunched Miyun production base for the project undertook from Ministry Industry and Information Technology (MIIT) for 2015 industry transformation and upgrading strengthening basic parts project. <multiway valve for construction machinery and construction vehiclesimplemen-tation plan>.

2015

2020年, 新冠疫情爆发伊始, 华德液压迅速成立三个口罩生产设备服务保障组, 共维护保障30余条口罩生产线, 保障了北京乃至全国的口罩供应, 展现国企担当。

In 2020, at the beginning of the outbreak of the COVID-19, Huade Hydraulic quickly set up three mask production equipment service support groups to maintain and guarantee more than 30 mask production lines, ensuring the supply of masks in Beijing and even the whole country, state-owned company.

2020

2022年, 华德液压荣获国家工信部“制造业单项冠军示范企业”、北京市“专精特新”企业、北京市“高新技术企业证书”。

In 2022, Huade Hydraulic won the "Manufacturing Single Champion Demonstration Enterprise" of the Ministry of Industry and Information Technology, the "Specialized sophisticated" enterprise of Beijing, and the "High-tech Enterprise Certificate" of Beijing.

2022

1979

1979年2月19日, 北京市液压工业公司正式成立, 公司下辖一个研究所和六个生产企业, 即北京液压技术研究所、北京液压件厂、北京液压件二厂、三厂、四厂、五厂及六厂。

Beijing Hydraulic Industry Company was found on Feb.2,1979. it owned an institute and six factories. They were Beijing Hydraulic Technology Institute, Beijing Hydraulic component company, The 2nd Beijing Hydraulic component company, The 3rd Beijing Hydraulic component company, The 4th Beijing Hydraulic component company, The 5th Beijing Hydraulic component company.

1995

1995年12月8日, 北京市经济委员会批准组建北京液压工业集团。

On Dec.8,1995, approved by beijing municipal commission of economy, beijing hydraulic industry group was found.

2001

2001年1月18日, 北京华德液压工业集团有限责任公司正式揭牌。

On Jan.18, 2001, Beijing Huade Hydraulic Industrial Group Co., Ltd. officially inaugurated.

2008

2008年, 华德产品用于北京残奥会闭幕式舞台系统并受到奥运会组委会的赞誉。

Huade products were used in stage hydraulic system of closing ceremonies for Beijing Paralympics, and won praise, in 2008.

2009

2009年, 华德液压原总经理杜旭东代表机械行业参加国庆60周年庆典。

The former General Manager of Huade, Mr. Du Xudong, was invited to participate in the ceremony of the 60th National Day Anniversary on behalf of Huade, in 2009.

2014

2014年4月28日, 中华全国总工会在北京人民大会堂召开表彰大会, 授予华德液压等305个单位“全国五一劳动奖状”。

April 28, 2014, the ACFTU awards ceremony was held in Beijing's Great Hall, Huade and other 304 companies was awarded the "National May first Labor Award".

2016

2016年, 研究所承制北京奥林匹克塔五环旋转装置, 成为国际奥委会认可的奥林匹克五环标志永久安放地。

In 2016, the Institute undertook the production of the fivering rotating device of the Beijing Olympic Tower, where become the place Olympic fivering symbol recognized by the International Olympic Committee stay permanently.

2019

2019年, 华德液压参与新中国成立70周年庆典彩车设计制作, 10名党员干部职工圆满完成群众游行。

In 2019, Huade Hydraulic participated in the design and production of floats for the celebration of the 70th anniversary of the founding of New China, and 10 party members, cadres and workers successfully completed the mass parade.

2021

2021年, “十四五”开局之年, 落实京城机电“十四五”战略批复和空间布局方案, 以高质量发展向中国共产党成立100周年献礼。

In 2021, in the first year of the "14th Five-Year Plan", the strategic approval and spatial layout plan of Beijing Jingcheng Machinery Electric Holding Co., Ltd. during the "14th Five-Year Plan" were implemented, and a gift was presented to the 100th anniversary of the founding of the Communist Party of China with high-quality development.

2023

2023年, 华德液压紧跟京城机电发展方向, 完成徐州生产基地建设, 实现国防装备与民品系统业务整合, 为企业高质量发展迈进新的一步。

In 2023, Huade Hydraulic closely follow the development direction of Jingcheng Holding, complete the construction of Xuzhou production base, realize the integration of national defence equipment and civil business, and take a new step for the high-quality development of enterprises.

企业愿景

COMPANY VISIONS

原全国人大副委员长路甬祥视察华德液压
The former vice chairman of the National People's Congress, Mr. Lu Yongxiang, visited Huade.

原机械工业部部长何光远为华德液压题词：
为建设中国最高水平的液压工业基地努力奋斗！
The former Minister of Ministry of Machinery Industry, Mr. He Guangyuan, wrote inscriptions for Huade:
To strive for being one of the best hydraulic base in China!

北京京城机电控股有限责任公司党委书记、
董事长阮忠奎莅临华德液压调研指导工作
The chairman of Beijing Jingcheng Machinery Electric Holding Co., Ltd., Ruan Zhongkui, visited Huade for research and guidance.
